City Beach Primary School *Each of us*

CITY BEACH PRIMARY SCHOOL
HOMEWORK GUIDELINES

At City Beach Primary School we want homework to be an enjoyable experience for families that fosters positive relationships, gives you the chance to connect with each other and share in what they're learning about at school.

We believe homework can:

- Build partnerships with the school to support and understand the teaching and learning that is happening in the classroom;
- Allow you to spend quality time with your child;
- Consolidate learning;
- Extend learning;
- Frontload future learning; and
- Provide routines to develop effective study habits.

CBPS HOMEWORK PROCEDURES & GUIDELINES

- Daily reading is an essential part of homework for students across all year levels at CBPS.
- Future Focused Learning is a focus for students at CBPS. *Reading Eggs/Reading Eggspress and Mathletics* online platforms will be used to familiarise children with digital platforms and processes that are used at school to complete on-line assessments and reduce the need for hard copies. Homework tasks are set by the teacher to consolidate learning and provide immediate feedback to both students and parents.
- Some classes may use a diary to develop organisational skills and communicate with parents. If so, there is an expectation that parents check and sign diaries to support student learning.
- Individual classroom teachers will communicate homework requirements consistent with the school's procedures and guidelines.
- Homework completion can be discussed with your child's classroom teacher, to accommodate individual family circumstances. Not all homework tasks will be checked by the teacher.

ABSENTEESIM VACATION

Absences for extended holidays (over 5 days) during the school term need to be pre-approved via email by the Principal. Please note that schoolwork is not provided for students who take holidays during the term.

While you and your child are away you can:

- Read daily;
- Keep a holiday journal to record real world experiences and learning;
- Read the weekly teacher Compass NewsFeed to share what the class is learning; and
- Access Mathletics and Reading Eggs platforms to complete assigned tasks.

The CBPS Homework Guidelines reflects the uniqueness of our school community and aims to achieve a balance for our students and families. We acknowledge that children lead busy afterschool lives and aim to give them enough time to play outside and enjoy learning as we work towards achieving our vision where City Beach Primary School provides:

A CONNECTED CULTURE OF LEARNING, EXCELLENCE AND SUCCESS FOR EACH OF US.

Achieving together with Pride
